Pred. No. is the number of results predicted by chance to have a 41: em_htgo_other:*

score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution. SUMMARIES.

                 AS28950:
     The present invention provides human cDNAs, proteins and related genomic observables be used in the treatment of neutral, laterage special neutral prescudentive, estrohitekethal, pulbocary, cardiovasoular, and and popilizative discretives and inflammation. The present sequence is a cDNA of the invention.
